

Terms and conditions:

1. In order to ensure that excavation works shall be done once and for all on the involved routes; your Company shall ensure that, in addition to the HDPE/GI pipe reserved for its own use as part of each site connection, at least three spare HDPE/GI ducts shall be laid for lease to other operators who might want to connect the same sites in future;
2. Horizontal/underground drilling apparatus shall be used wherever there is a need to lay cables across asphalted or surfaced roads, unless specific authorization has been obtained for route segments where trenching across a road is inevitable;
3. Trenches along road networks shall be sufficiently deep to provide appropriate fiber cable protection and where possible shall be placed at least 2 m away from the edge of pedestrian walkways or storm drainages along paved roads. The cables shall be laid in ducts buried to depths of not less than 1.5 m from the finished ground level;
4. All Cables shall be protected by HDPE or GI ducts and hence, the use of direct buried cable is prohibited;
5. Every GI pipe shall be hidden or present camouflage in order to minimize the risk of being vandalized or stolen
6. A document detailing the time frame should be sent to RURA before starting the civil works;
7. The installation shall be in line with the conditions formulated by Local/ Central government;
8. The authorization holder must liaise with RTDA before starting the fibre Optic deployment when the civil works has to affect any National Road;
9. If the validity of this Authorization expires before starting the fibre Optic deployment, a new application shall be formulated.
10. Once the fibre Optic deployment complete, the space used shall be reversed to its original state
11. RURA reserves the right to order the suspension of the installation or to withdraw the authorization to the holder in the event of violation of any of these terms and conditions or deemed necessary by any competent authority.
12. In the event of a dispute of any nature whatsoever, before, during or after the installation, the holder of the authorization must make all effort to find a solution to this dispute, otherwise he will bear all resulting liabilities and the clause 10 above shall be applicable to him.
